

Barcelona, October 2017

Many people from Barcelona feel tired, disillusioned and unprotected in the face of the terrible consequences of the disastrous separatist “Procés”.

Companies from Barcelona have fled from legal and political instability. According to the Registrar Association by the end October 1,302 out of the biggest companies left Catalonia (1,165 from the province of Barcelona).

Tourism, one of a our main sources of income, is suddenly viewing the city in a decadent way compared to its traditional image as a warm, quiet and friendly destination.

Separatism is, unfortunately, destroying Barcelona economically.

Weary of this situation, we propose to recover Barcelona, a city which showed the world how to organize the Olympic Games in 1992, the best in history, with the usual cooperation of Spain.

We want a universal Barcelona, like the one that captivated Pablo Picasso, Gabriel García Márquez, Mario Vargas Llosa... a Barcelona which uses its two languages as a means of understanding and never as confrontational weapons.

We want to attract investors through a social and legal stability typical of a democratic country, instead of having to suffer blameless businesses leaving, with the consequent impact on the ordinary citizens from Barcelona.

Let all of us recover that happy Barcelona, the warm, cultured and cosmopolitan city that separatists are taking from us.

Could it be that we, the people from Barcelona, do not have the right to decide on and protect our future?

**The voice of Barcelona will never be silenced. We will not allow this to happen. We will work together to create the Autonomous Community of Barcelona.**
